

Task

The provided code stub reads two integers from STDIN, *a* and *b*. Add code to print three lines where:

1. The first line contains the sum of the two numbers.
2. The second line contains the difference of the two numbers (first - second).
3. The third line contains the product of the two numbers.

Example

a = 3

b = 5

Print the following:

8

-2

15
